TODD MERRILL STUDIO

The Aluminum Tube sofa, a unique design by Todd Merrill Custom Originals, seamlessly blends elements of early-1920s Bauhaus Modernism with a 1970s Brutalist sensibility. The unique streamlined maximalism sits perfectly in a 21st-century home. The elegant low profile of the sofa's continuous racetrack back is encased with polished aluminum. Rows of channel tufted velvet mimic the metal, creating an ergonomic back and seat. Each sofa is produced to a client's specification with customizable sizes and finish options. toddmerrillstudio.com

HOLLY HUNT

The Full Bloom pendant is influenced by the life cycle of a flower and its anatomy. Delicately held within a bronze armature, each piece is composed of a singular solid, glass-blown form containing the illumination. The combination of materials creates an X-ray-like quality when illuminated, and the form appears to weightlessly hover as the light changes from day to night. hollyhunt.com

FABRICUT

Revival, a new textile collection from S. Harris, explores themes surrounding Art Nouveau, reinterpreted for today's luxury interiors. Inspired by Art Nouveau's most iconic pieces and influential artists, the collection highlights a modern restoration of what's been made new so many times before. fabricut.com
